

Comfort Every Hour, Every Season™

Fan Coils

Fan Coils

FSU/FSM Series

- Designed to match your home's heating and cooling system
- Time-delay electronic control extends fan operation for maximum air circulation
- Direct drive blowers aerodynamically engineered for quiet operation
- Reliable blower motor boosts efficiency
- Triple-step paint process and structurally reinforced, rust-resistant, heavy-gauge, galvanized steel cabinet for durability
- Available in R410A or R22 models
- Upflow or multiposition models available
- 5 year parts limited warranty*
- FSM2 features a 1 year No Hassle Replacement limited warranty*
- FSM4 features a 5 year No Hassle Replacement limited warranty*

FEM Series

- Uses GE brushless permanent magnet motor technology to increase system efficiency
- Multiposition for application flexibility
- Available in R410A and R22 models
- 5 year parts limited warranty*
- FEM2 features a 1 year No Hassle Replacement limited warranty*
- FEM4 features a 7 year No Hassle Replacement limited warranty* and a 7 year coil limited warranty*

*See published warranty for complete details.

To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to DayandNightComfort.com.

Excellence plus efficiency comes in one package!

All of our units are specifically designed to work with your Day & Night™ heating and cooling system. Properly matching the condensing unit and high efficiency fan coil can increase SEER[†] and HSPF[†] ratings up to a full point and increase your energy savings! You get the best of both worlds in one package—the ultimate comfort control plus optimum efficiency—for comfort every hour, every season!

[†]SEER stands for Seasonal Energy Efficiency Ratio and HSPF for Heating Seasonal Performance Factor.

Fan coils come in various capacities, ranging from 1.5 to 5 tons.

The difference is Day & Night.

Modular Blowers

MB/MV/MF Series

- Compact size for hard-to-fit spaces
- Cased coil delivers high performance
- MB Series operates on standard 115V household current
- MF Series is designed for 208V/230V operation
- MV Series features a variable-speed blower that saves the most energy
- 5 year parts limited warranty*

Day & Night gives you warranties to ease your mind. Our No Hassle Replacement™ limited warranty* gives you a replacement unit if the main component fails within the covered period. Also, ask your dealer about HELP® extended service agreements for additional worry-free protection.

Fan Coils

FVM Series

- Uses GE brushless permanent magnet, full variable-speed motor technology to increase system efficiency and comfort
- Variable-speed blower motor gradually and quietly ramps up to reduce uncomfortable temperature swings
- Smooth, quiet performance
- Airflow can be adjusted for personal preferences
- Continuous fan mode setting for improved air circulation
- Multiposition to fit various spaces
- Available in R410A and R22 models
- 7 year parts limited warranty*, 10 year No Hassle Replacement limited warranty*, 10 year coil limited warranty*

Fan Coils

Pure comfort for all seasons.

Since heating and cooling systems are designed to work together, Day & Night strongly recommends that you have your dealer install both at the same time for optimum efficiency, savings, and comfort.

- a. Humidifier** enhances comfort by reducing dryness in the air.
- b. Air Cleaner** filters many indoor air pollutants so you can breathe easier.
- c. Set-Back Thermostat** allows you to customize heating and cooling levels and also save energy.
- d. Fan Coil** is designed to optimize airflow and improve cooling and heating efficiency.
- e. Condensing Unit** keeps your home cool and comfortable while saving on energy.
- f. Evaporator/Indoor Coil**, to match your Day & Night air conditioner, heat pump and furnace, assures you of optimum performance.
- g. UV Lights** help prevent the growth of microbes on the coils.

If you own a Day & Night air conditioner with the EPA-approved, environmentally sound refrigerant R410A, your installer can match it with a compatible fan coil. The FSU, FSM, FEM and FVM Series come in models designed for R410A systems.

As part of its commitment to quality, International Comfort Products, LLC reserves the right to change specifications on its products without notice. Illustrations and photographs in this brochure are only representative. Some product models may vary.

All systems tested and listed by the appropriate agencies.
