

Custom Home Decor Products

Careful attention to detail is what sets the finest home apart from others. The same tools and skills we use to create our registers and grilles can easily be applied to create other fine home décor items.

Shown here are just a few of the many enhancements SteelCrest manufactures that combine beauty, function and artisan-quality features that make fine additions to outstanding homes.

Clockwise from top: ornamental exposed timber truss plates, a decorative rain down-spout, custom window grilles on sidelight windows, the Control Panel Box, the Access Panel Box with concealment insert, and two custom created grille inserts.

Cabin Collection

Got a cabin in the mountains? Not only are these "Cabin Collection" products perfect for your weekend get-away home, they are ideal for any home that calls for a rustic outdoor ambiance. Offered in floor, wall, or ceiling style, these unique products demand to be placed in a prominent location where they can be seen and enjoyed by all.
