

TRANE 2/4TEC AIR HANDLER

Trane Profit-ability

Sell-ability

- ≡ Superior performance and appearance
- ≡ 3-speed fan motor
- ≡ Air-Tite™ cabinet
- ≡ Precision engineering
- ≡ Sound reduction
- ≡ Matched systems

Install-ability

- ≡ 6-way convertibility
- ≡ Tonnage 1.5 to 5
- ≡ Recessed screws
- ≡ External drain connections
- ≡ R-22 and R-410A refrigerant compatible

Service-ability

- ≡ Easy-access control box
- ≡ Quick filter change with standard filters
- ≡ External refrigerant components
- ≡ Easy coil cleaning

Performance-ability

- ≡ SEER 13.00
- ≡ 400 CFM/ton nominal airflow
- ≡ Thermostatic expansion valve

Rely-ability

- ≡ Best reliability
- ≡ Quiet internal check valve

It's Hard To Stop A Trane.®

TRANE LIMITED WARRANTY
5-year functional parts

QUIET RELIABLE PERFORMANCE. STEADFAST CONSISTENT PROFITS.

The Trane 2/4TEC air handler is a great choice for **enhanced airflow flexibility** and improved energy savings in quality new construction and residential replacement jobs. The TEC has a 13.00 SEER and a 3-speed indoor blower distributing 400 CFM/ton nominal airflow for even,

consistent comfort every month of the year. All in an **attractive package** that meets or beats the competition for reliability—something that will add up to steady profits for you.

Reliable performance

Precision engineering, design innovation and rigorous testing for reliable, long-lasting performance and durability.

Better indoor air

Add a TRANE CleanEffects™ air cleaner and remove up to 99.98% of airborne allergens from the filtered air for a cleaner, more comfortable home.

Comfort control

Give your customers better comfort control with a Trane digital or programmable thermostat.

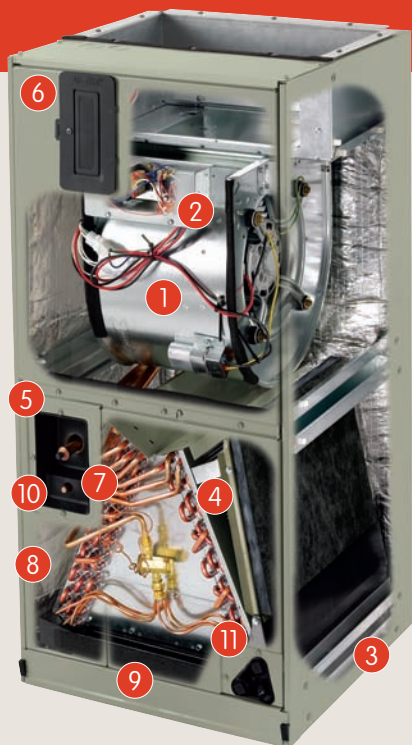

Enhanced comfort

Delivers quiet, even, consistent comfort all year round.

Efficient operation

Increased efficiency may substantially lower your customers' home utility costs.

TRANE 2/4TEC AIR HANDLER

Features and components may vary by model and are shown for illustration purposes only.

1 3-speed indoor blower

Selectable to meet specific heating and cooling requirements.

2 Easy-access control box

Located behind one easy-to-remove panel for fast installation and service.

3 "No Leak" base pan

Rust-resistant, polycarbonate drain pan. Fully sloped to put an end to standing water.

4 Extra-large coil surface

Enhances heat transfer, provides greater efficiency, more heating and cooling capacity.

5 Recessed screws

Will not snag on walls or door facings during installation.

6 Corrosion-resistant finish

Covers all panels uniformly to resist corrosion.

7 Air-tite™ insulated cabinet

Heavy steel and insulation protects from heating and cooling losses, and lowers sound levels.

8 Fully gasketed doors

Reduces air leaks to improve efficiency, and decreases overall sound.

9 Easy-access filter doors

Standard off-the-shelf filters located behind one easy-to-remove door for quick and convenient filter change.

10 External refrigerant connections

Provide for faster installation and service.

11 External drain connections

Provide for faster installation and service.
