

TRANE XL16c PACKAGED HEAT PUMP

Your Profit-ability

Sell-ability

- ≡ Up to 16 SEER and ENERGY STAR® qualified
- ≡ Industry leader; solid brand reputation
- ≡ Quietest performance on the market
- ≡ Clean, sleek lines; attractively updated design
- ≡ Great reliability and durability
- ≡ All-steel cabinet with appliance-grade finish

Install-ability

- ≡ Residential or commercial
- ≡ Easily converted for horizontal or vertical applications
- ≡ Factory-built 12" and 18" duct covers for extra-clean, horizontal installation
- ≡ Panhead screws on supply and return panel for flush-fit duct connection

Service-ability

- ≡ Easy access to compressor, blower and controls
- ≡ Liquid-line port in compressor compartment
- ≡ Drain pan is extra deep and steeply sloped to ensure drainage
- ≡ Stamped labels on access panels assist service technicians

Performance-ability

- ≡ Variable-speed indoor blower with Comfort-R™ enhanced airflow system
- ≡ Ultra-quiet, state-of-the-art ducted fan
- ≡ Durable weather-beater top easily sheds water
- ≡ All-aluminum Spine Fin™ coil for long-lasting performance
- ≡ Energy-saving Vortica™ blower provides strong airflow — quietly

Rely-ability

- ≡ Climatuff® two-stage compressor
- ≡ WeatherGuard™ corrosion-resistant fasteners
- ≡ Extra-rigid, foil-faced insulation for cleaner, longer performance
- ≡ Electronic demand defrost

It's Hard To Stop A Trane.®

TRANE LIMITED WARRANTY
10-year compressor and coil
5-year functional parts

BOOST SALES WITH QUIET, EFFICIENT COMFORT.

Featuring some of the **highest SEER ratings for packaged heat pumps** in the industry, the TRANE XL16c delivers exceptional efficiency. A **two-stage Climatuff® compressor** runs at a lower energy-conserving stage most of the time, stepping up only when needed for flexible, cost-effective performance. A **variable-speed blower motor with Comfort-R™**

also helps eliminate temperature variances, provide warmer startups during heating and deliver greater humidity control during cooling. And the **quiet, yet powerful Vortica™** blower along with the durable **all-aluminum Spine Fin™ coil** make the XL16c easy to sell and simple to depend on, year after year.

Ultra-quiet operation

Delivers exceptionally quiet performance with sound levels as low as 70 dB.

Attractive appearance

Enhanced louvers and corner guards give the XL16c a cutting-edge design that complements any home.

Reliable performance

Precision engineering, design innovation and rigorous testing for reliable, long-lasting performance and durability.

Comfort control

Give your customers better comfort control with a Trane digital or programmable thermostat.

Efficient operation

Two-stage operation and variable-speed blower motor with Comfort-R™ provide increased energy efficiency.

TRANE XL16c PACKAGED HEAT PUMP

Features and components may vary by model and are shown for illustration purposes only.

- 1 Variable-speed blower motor with Comfort-R™**
Operates at lower, more efficient speeds than conventional motors. With Trane's exclusive Comfort-R feature, there is greater humidity control during cooling.
- 2 Composite Vortica™ blower**
Advanced design uses less energy to produce more airflow with minimal sound. Slides out for easy service.
- 3 Ultra-quiet, state-of-the-art ducted fan**
High efficiency motor and outdoor fan work flawlessly together for an incredibly quiet performance.
- 4 Climatuff® two-stage compressor**
Two stages of heating and cooling provide exceptional comfort, cost savings and quiet operation.
- 5 All-aluminum Spine Fin™ coils**
Thousands of tiny aluminum fins provide a larger surface area, resulting in enhanced airflow and heat transfer. Less likely to clog or corrode than traditional copper/aluminum coils — even under the harshest conditions.
- 6 Electronic demand defrost**
Provides maximum-length heat pump cycles and minimizes defrost interruptions for longer compressor life and better comfort in the home.
- 7 Attractive, functional louvers and corner guards**
Automotive-grade, UV-resistant plastic components deliver added protection, safety and aesthetic appeal.
- 8 Durable weather-beater top**
Contoured and reinforced to shrug off the elements year after year.
- 9 Appliance-grade finish**
All-steel cabinet with a baked-on powder-painted coating for smooth, safe edges and years of protection.
- 10 Embossed service panels**
Allow easy access to compressor, blower and controls.
- 11 Optional electric heater kits**
A full range of electric heaters available for all models. (not shown)
